Madrid will also captivate your taste buds. Enjoy the charm of its bars and taverns, savour the vast offering of Spanish and international cuisine in its restaurants and foodie destinations, or try some typical Madrid dishes like “chocolate con churros” (hot chocolate with fritters), “cocido madrileño” (a hearty chickpea stew) or a squid sandwich.

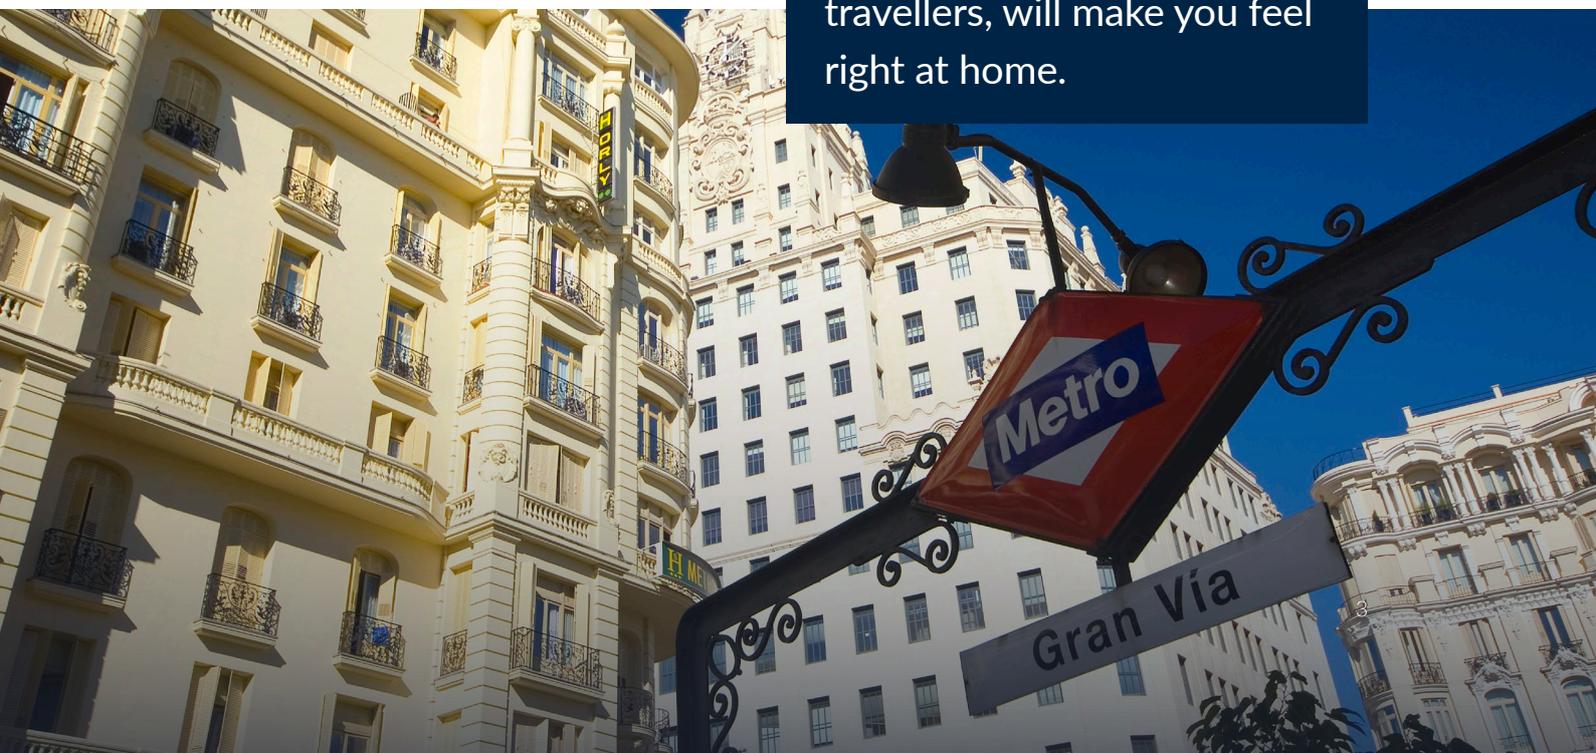

Lounge in the sun or ride a bike in one of the greenest cities in Europe. You can stroll around vast natural areas like the **Retiro**, **Casa de Campo** and **Madrid Río** parks. The mountains near Madrid are a great place for snow sports and for immersing yourself in nature.

Don't miss a visit to a **flamenco tablao** to really experience “Spanish passion”.

AVE

This is Spain's high-speed train. The cities it serves include Barcelona, Valencia, Alicante and Seville, among others. After a fast and comfortable journey you'll arrive in Atocha, right in the heart of the city. There are various passes and discount cards available, such as the Renfe Spain Pass, valid for up to ten trips on all AVE high-speed trains.

CAR

Spain has an extensive and modern network of roads, motorways and dual carriageways criss-crossing the entire country on which you can travel from end to end in total comfort and safety.

GETTING AROUND MADRID

To get around Madrid we recommend the **metro**, an extensive and modern underground network comprising 12 lines that cover almost all the points in the capital and some of the nearby towns.

The city buses of the **Empresa Municipal de Transportes (Municipal Transport Company)** are another good transport option. The service generally runs every day of the year from 6 am to 11:30 pm. In the early morning hours there is a nocturnal service known as the **Búho**, or night owl. For more information, visit the EMT website: www.emtmadrid.es.

Tourist buses, like Madrid City Tour, are one of the most convenient and easiest ways to enjoy the monuments and the sites of interest in the city. You can hop on and off as many times as you want.

If you're interested in going to any of the nearby destinations, the best option is the **Cercanías or commuter train**, which has nine lines that serve the Madrid Region. All the trains go through, or leave from, Atocha Station.

BiciMAD runs a loan service for electrical bicycles. You can get a card instantly for one, three or five days.

You can also use a motorcycle and electrical car hire system to get around the whole city.

Madrid City Card: this card includes the Tourist Transport Card, which gives you unlimited use of public transport (zone A) while it is valid, and offers benefits and discounts at the city's leading attractions.
